

RBCI

ACHIEVING IMPACTFUL OUTCOMES THROUGH INNOVATION

Leading with Excellence in Healthcare Supply Chain, Technology and Business Transformation

RBCI empowers federal agencies with elite Agile practitioners and mission-critical experts. We harness data to drive proactive decisions, strengthen operations, and deliver measurable performance gains.

Pioneering Transformation with a Veteran's Ethos

As a proud Service-Disabled Veteran-Owned Small Business (SDVOSB), RBCI delivers innovation with purpose. Our vision is rooted in mission impact—empowering military, federal, and commercial partners with high-value, results-driven solutions.

Designing Solutions with the User in Mind

Our Human-Centered Design (HCD) approach—reinforced by industry-leading certifications and proven processes—delivers efficiency, cost savings, risk mitigation, compliance, and quality across every engagement.

Healthcare Supply Chain Optimization

**Defense Health Agency (DHA)
Integrated Clinical Systems (ICS) PMO
2024 – 2029 [Prime]**

- Conducts site assessments, medical equipment analysis, acquisition planning, data analysis, and PPBE in support of major clinical equipment procurement, to enable full lifecycle management and improve clinical readiness and care delivery across DHA.

IT & Business Transformation

**DHA Medical Logistic (MEDLOG) IT PMO
Defense Medical Logistics-Enterprise Solutions
2005– 2029 [Various contracts]**

- Modernized enterprise systems (LogiCole, DMLSS, TEWLS, DCAM, NORA) through software development, lifecycle management, IV&V, testing, and training.
- Integrated medical logistics platforms, improved data governance, and strengthened risk management and decision-making coordination.

Empowering Processes & Technology

**VA Office of Enterprise Integration (OEI)
Data Governance & Analytics (DGA) Support
2023 – 2025 [Prime]**

- Supported VA Data Strategy (VADS) implementation through program management and interagency integration.
- Led data governance reviews and process improvements.
- Enhanced analytics and dashboards to strengthen performance monitoring, compliance, and accountability.

A Legacy of Navigating Complex Challenges

RBCI's legacy is defined by consistent performance and mission-focused execution. We excel at solving complex business and technical challenges, uncovering opportunities, and mitigating risks. Guided by principles that drive impact, we remain committed to resilience, sustainability, and long-term value in government.

Innovating for Tomorrow's Challenges

We apply strategic foresight, predictive analytics, and data-driven insights to help partners anticipate needs, reduce risk, and make faster, smarter decisions that deliver measurable impact.
